BLACKWELL SCIENTIFIC PUBLICATIONS

No. 1

Editorial

Principles of sodium and water reabsorption in the proximal convoluted tubules of the kidney: *Fredrik Kiil* 1

Clinical Physiology

Bicarbonate as mediator of proximal tubular NaCl reabsorption and glomerulotubular balance: *Ø. Mathisen, T. Monclair, H. Holdaas & F. Kiil*... 7
Renal osmol clearance during prolonged heavy exercise: *H. E. Refsum & B. Strømme* ... 19
The glomerular filtration rate determined with ^{99m}Tc-DTPA and a portable cadmium telluride detector: *N. Rossing, J. Bojsen & P. L. Frederiksen* 23
Plasma citrate during submaximal and intermittent supramaximal exercise: *T. Toftegaard Nielsen* 29
Synthesis of muscle glycogen during recovery after prolonged severe exercise in diabetic subjects. Effect of insulin deprivation: *S. Mæhlum, A. T. Høstmark & L. Hermansen* 35
The relation between carbohydrate extraction by the forearm and arterial free fatty acid concentration in man. I. Forearm work with nicotinic acid infusion: *L. Kaijser, E. R. Nye, B. Eklund, A. G. Olsson & L. A. Carlson* 41
Uromucoid in normal urine: *H. Haugen, I. Åkesson, E. Enger & S. Meberg* 49

Clinical Chemistry

Inter-laboratory quality control with investigation of different methodological characteristics: *T. Aronsson, P. Bjørnstad, S. G. Johansson, E. Leskinen, E. Raabo & C.-H. de Verdier* ... 53
Vacutainer sampling for blood coagulation assays: *I. Norén, M. Blombäck, E. Fridell & U. Wallinder* 63
A new method for determination of microsomal haem oxygenase (EC 1.14.99.3) based on quantitation of carbon monoxide formation: *E. Cavallin-Ståhl, G.-I. Jönsson & B. Lundh* ... 69
Heparin–Sepharose affinity chromatography of human post-heparin plasma. Characterization of the elution pattern with immunoelectrophoretic methods: *L. Thim* 77
Release of newly synthesized squaline, methyl sterols and cholesterol from human adipocytes in the presence of lipoproteins: *R. S. Tilvis, P. T. Kovanen & T. A. Miettinen* 83
Bone phosphorus/hydroxyproline ratio and bone histomorphometry in normals: *L. Tougaard, F. Melsen & L. Mosekilde* 89

Technical Note

Quantification of uromucoid: a simplified method: *I. Åkesson, H. Haugen & E. Enger* ... 93

No. 2

Clinical Chemistry

Evaluation of the double antibody-solid phase radioimmunoassay technique in plasma LH and FSH and urinary LH measurements: *S.-L. Karonen, P. Lähteenmäki, U. Hohenthal & H. Adlercreutz* 97

Mammalian O-phosphorylethanolamine phospho-lyase activity and its inhibition: *Ida Howard Grøn* 107

Changes in plasma high density lipoproteins in chronic male alcoholics during and after abuse: *B. Danielsson, R. Ekman, G. Fex, B. G. Johansson, H. Kristensson, P. Nilsson-Ehle and J. Wadstein* 113

Calcium transport and adenosine triphosphate activities of erythrocyte membranes in congenital spherocytosis: *Tilitta Johnsson, Sona Santaholma & N.-E. Saris* 121

An automated method for determination of serum and urine α-amylase: *Raija Puukka* ... 127

Clinical Physiology

Efficiency of the Frank-Starling mechanism at various levels of intropy and after load during aortic insufficiency in the dog: *Arnfinn Ilebekk & Målfrid Molaug Miller* 133

Renal plasma flow and cardiac output during hydralazine and propranolol treatment in essential hypertension: *D. K. Falch, A. E. Ødegaard & N. Norman* 143

The influence of different sodium loads on renin release in hypertensive and normotensive states of chronic renal failure: *H. J. Korneup* 147

The influence of acute blood volume changes on plasma renin activity in man: *Birger Hesse, Ingolf Nielsen, Helmer Ring-Larsen & Jørgen Fischer Hansen* 155

Renin stimulation by passive tilting: the influence of an anti-gravity suit on postural changes in plasma renin activity, plasma nonadrenaline concentration and kidney function in normal man: *Birger Hesse, Helmer Ring-Larsen, Ingolf Nielsen & Niels Juel Christensen* 163

Lower leg blood flow in intermittent claudication: *Dag Sørlie & Kjell Myhre* 171

Maximal work performance test in middle-aged women: results from a population study: *C. Bengtsson, J. A. Vedin, G. Grimby & G. Tibblin* 181

Technical Note

Enzymatic determination of triglycerides with a System Olli 3000 analyser: *Raija Puukka, H. Jokela & M. Puukka* 189

No. 3

Editorial

Early detection of chronic obstructive lung disease: *Bjørn Johansen & Jon R. Vale* 193

Clinical Physiology

Inter- and intra-individual variation of carbon monoxide production in young healthy males: *B. Werner* 199
The electrical potential difference and impedance between CSF and blood in unanaesthetized man: *Eli Sørensen, Jes Olesen, Jørgen Rask-Madsen & Henrik Rask-Andersen* 203
Mechanisms for inhibition of free fatty acid mobilization by nicotinic acid and sodium salicylate in canine subcntaneous adipose tissue *in situ: Harald Vik-Mo & Ole D. Mjøs* 209
Effects of physical training in intermittent cladication: *Dag Sørlie & Kjell Myhre* 217
Papillary permeability and maximal blood flow in skeletal muscle in athletes and non-athletes measured by local clearances of ^{133}Xe and $^{131}I^-$: *H. Leinonen, S. Salminen & P. Peltokallio* 223
Effects of β-adrenergic receptor blockade on metabolic rate and mixed venous blood temperature during dynamic exercise: *Tomas Brundin* 229
Renal haemodynamics before and after splanchnic block in patients with hypertension: *L.-E. Lörelius, P.-O. Löfroth, C. Mörlin, L. Wiklund & H. Åberg* 233

Clinical Chemistry

Plasma and urinary aldosterone and their interrelations with blood pressure, plasma renin activity and urinary electrolytes in normotensive subjects: *Kerstin Tolagen & Bengt E. Karlberg* 241
Studies on the determination of plasma prolactin: *Sirkka-Liisa Karonen, Helena Holmberg, Pekka Lähteenmäki & Herman Adlercreutz* 249
Effects of oral phenylalanine load on plasma glucagon, insulin, amino acid and glucose concentrations in man: *F. Güttler, C. Kühl, L. Pedersen & P. Påby* 255
Purification and immunochemical quantitation of human pancreatic secretory trypsin inhibitor: *A. Eddeland & K. Ohlsson* 261
Urinary excretion of albumin β_2-microglobulin and free light chains during lithium treatment: *E. B. Pedersen, C. E. Mogensen, K. Sølling, A. Amdisen & S. Darling*... 269
Urinary excretion of porphyrins in two cases of porphyria cutanea tarda during a period of various treatments: *Leif Eriksen & Per O. Thune* 273
Ion exchange analysis of prophyrins in urine: *Torben K. With & Jane Serup Pedersen* ... 279

Technical Note

Comparison between mass spectrometry and Haldane technique in analysing O_2 and CO_2 concentrations in air gas mixtures: *Inger Hallbäck, Eddy Karlsson & Björn Ekblom* ... 285

No. 4

Clinical Chemistry

Adenylate cyclase activity in human liver membranes and its inhibition by adenosine and adenine nucleotides: *Bo Israelsson, Anna Berglund, Ulf Ljungqvist & Jörgen Malmquist* ... 289
Proficiency survey of serum protein analyses in Scandinavia: *Sverre Landaas, Sverre Skrede & Lorentz Eldjarn* 295
Plasma vitamin A transport and visual dark adaptation in diseases of the intestine and liver: *A. Vahlquist, K. Sjölund, Å. Nordén, P. A. Peterson, G. Stigmar & B. Johansson* 301
Biochemical abnormalities in Batten's syndrome: *G. Egeskov Jensen, V. K. S. Shukla, G. Gissel-Nielsen & J. Clausen* 309
Age, blood pressure, renin and urinary electrolytes in primary hypertension and in the normotensive state: *Bengt E. Karlberg & Kerstin Tolagen* 319
Muscle metabolism during and after strenuous intermittent running: *H. Näveri, S. Rehunen, K. Kuoppasalmi, I. Tulikoura & M. Härkönen* 329

Clinical Physiology

Release of prostaglandin-like substances and lung reactions to induced intravascular platelet aggregation in cats: *Jarle Vaage, Terje Wiberg & Elizabeth Scott* 337
Muscle glycogen synthesis after a glucose infusion during post-exercise recovery in diabetic and non-diabetic subjects: *S. Mæhlum*... 349
Cross-sectional area of thigh muscle in man measured by computed tomography: *Tom Häggmark, Eva Jansson & Bertil Svane* 355
Arterial collateral vessels in legs with obliterative arteriosclerosis: *D. Sørlie, B. Straume, C. Grimsgaard & N. K. Johnsrud* 361
Free light chains in serum during short course immunosuppression after corneal transplant: *K. Sølling & N. Ehlers* 369
Comparative pressure measurement in the oesophagus by means of *in situ* tip-transducers and external transducer systems: *Lene Wallin, Steen Boesby & Tommy Madsen* 375

Technical Notes

Some aspects of the clinical use of thermodilution in measuring cardiac output: *Bjørn Lauritz Hoel* 383
Calculation of oxygen saturation of mixed venous bloods in infants: *A. Thomsen* 389
A semi-automated radioimmunoassay technique employing a nine-channel pipetting and sample handling: *Pekka Lähteenmäkki* 393
Laboratory statistics made simple. Interfacing a clinical chemistry computer system with a general statistical program package: *H. E. Solberg* 397

No. 5

Editorial

Principles of cardiac output regulation: *Fredrik Kiil* 401

Clinical Physiology

Cardiac performance: significance of the Frank-Starling mechanism at low inotropy: *Arnfinn Ilebekk & Fredrik Kiil* 407
Inhibitory effects of vibrations on contractility of isolated rabbit papillary muscle: *M. Vukas, R. Sivertsson & B. Ljung* 415
Myocardial depressant effect of vibrations in the isolated rabbit heart: *M. Vukas, I. Málek & Å. C. Hjalmarson* 421
Changes in plasma volume and extracellular fluid volume after addition of prazosin to propranolol treatment in patients with hypertension: *H. Ibsen, K. Rasmussen, H. Ærenlund Jensen & A. Leth* 425
Treatment of severe foot ischaemia by defibrination with ancrod: a randomized blind study: *K. H. Tønnesen, Ph. Sager & Johs. Gormsen* 431
Hypoxanthine in cerebrospinal fluid in children: *Alf Meberg & Ola D. Saugstad* 437
The effect of exercise, smoking and propranolol on serum gastrin in patients with duodenal ulcer and in vagotomized subjects: *O. Brandsborg, N. J. Christensen, H. Galbo, M. Brandsborg & N. A. Løvgreen* 441

Clinical Chemistry

An automated method for the determination of total bile acids in serum: *Heidi Steensland* ... 447
Separator isoelectric focusing for identification of α-1-antitrypsin (Pi M) subtypes: *R. R. Frants, G. T. Noordhoek & A. W. Eriksson* 457
Purification and properties of human amniotic fluid diamine oxidase: *G. Tufvesson* 463
A comparison between diamine oxidase from human post-heparin blood serum, pregnancy blood serum and amniotic fluid: *G. Tufvesson* 473
Optimum laboratory test combinations for thyroid function studies, selected by discriminant analysis: *K. Rootwell & H. E. Solberg* 477
Aldosterone in primary hypertension relationship to plasma renin activity and urinary electro-lytes and a comparison with normotensive subjects: *Kerstin Tolagen*... 487

Technical Note

Determination of renal blood flow by thermodilution method: *Torbjörn Leivestad, Erling K. Brodwall & Svein Simonsen*... 495

No. 6

Editorial

Clinical porphyrin analyses: indications and interpretations: *Torben K. With* 501

Clinical Chemistry

Studies on the pancreatic secretory trypsin inhibitor in plasma and its complex with trypsin *in vivo* and *in vitro*: *A. Eddeland & K. Ohlsson* 507
Serological diagnosis of acute hepatitis B infection: *Peter Skinhoj & CHAP* 517
Determination of thiosulphate in urine: *Bo Sörbo & Sten Öhman* 521
Porphyrin production and liver involvement in a patient with erythropoietic protoporphyria: *I. Romslo, G. Høvding, E. Hamre & O. D. Lærum* 529
A sensitive radioimmunoassay for measurements of 3,3′-diiodothyronine in unextracted serum: *Peter Laurberg* 537
Determination of plasma or serum haemoglobin by peroxidase activity employing 2,2′-azino-di-(3-ethyl-benzthiazolinsulphonate-6) as chromagen: *Stefan Marklund* 543

Clinical Physiology

Skeletal muscle characteristics and carbohydrate metabolism after glucose loading in hypokalaemic periodic paralysis: *Torsten Johnsen, Michael E. Houston & Bengt Saltin* 549
Muscle glycogen concentration during recovery after prolonged severe exercise in fasting subjects: *S. Mæhlum & L. Hermansen* 557
The kinetics of myoglobin in old volunteers and in patients with acute myocardial infarction: *Christer Sylvén* 561
Abnormal renal haemodynamics during exercise in young patients with mild essential hypertension without treatment and during long-term propranolol therapy: *E. B. Pedersen* 567
Factors limiting renal proximal tubular reabsorption at high glomerular fitration rate: *Øystein Mathisen, Tom Monclair & Fredrik Kiil* 573
The applicability of the thermodilution method for determination of pulmonary blood flow and pulmonary vascular resistance in infants and children with ventricular septal defects: *Gunnel Hedvall* 581
Change in P wave terminal force and systolic time intervals during exercise in patients with coronary artery disease: *O. Brubakk, G. A. Rossland & O. M. Pedersen* 587

Technical Note

Radioimmunoassay of triiodothyronine thyroxine in capillary blood: *J.-G. Ljunggren, M. Tryselius, G. Kallner & G. Savidge* 593

No. 7

Editorial

Principles of active sodium reabsorption in the kidneys: *Fredrik Kiil* 597

Clinical Physiology

Functional differences of ouabain and ethacrynic acid on renal potassium metabolism in dogs: *Ole M. Sejersted, Hallvard Holdaas & Tom Monclair* 603
Characteristics of transcellular NaCl reabsorption in the kidney: *Tom Monclair, Øystein Mathisen & Fredrik Kiil* 615
Mechanism of NaCl reabsorption and glomerulotubular balance in hyperchloraemic acidosis: *Øystien Mathisen, Morten Raeder & Fredrik Kiil* 627
Exercise- and post-exercise metabolism of the lower leg in patients with peripheral arterial insufficiency: *Dag Sørlie, Kjell Myhre & Ole D. Mjøs* 635

Clinical Chemistry

Lecithin:cholesterol acyltransferase activity in rats treated with 4-amino-pyrazolo-pyrimidine: *G. Nordby, L. Helgeland, O. D. Mjøs & K. R. Norum* 643
Primary structure of human intrinsic factor: progress report on cyanogen bromide fragmentation: *Ebba Nexø, Henrik Olesen, Marianne Rye Hansen, Ditlef Bucher & Johannes Thomsen* 649
A rapid direct determination of cadmium in blood by anodic stripping voltammetry: *Jytte Molin Christensen & Helle Angelo*... 655
An analysis of measured and calculated calcium quantities in serum: *Kaj O. Pedersen*... ... 659
Erythrocyte-Zn-protoporphyrin as an indicator of lead exposure: *P. Grandjean & J. Lintrup* 669
An improved competitive protein-binding assay for 25-hydroxy vitamin D: *Lage Aksens* ... 677
Radioimmunoassay for melatonin in human serum: *Thorsten S. Thoresen* 687

No. 8

Editorial

Shifts in the conformation of serum albumin and their possible significance in normal catabolism: *K. Wallevik* 693

Clinical Chemistry

Hydrolysis of long-chain fatty acyl-CoA in homogenates of human blood platelets: The existence of a platelet palmitoyl-CoA hydrolase: *R. K. Berge & M. Farstad*... 699
Radioimmunoassay of 8-arginine-vasopressin (antidiuretic hormone) in human plasma: *Mogens Hammer* 707
Evaluation of urinary myoglobin assay test for myocardial infarction: *F. A. Karlsson, L.-E. Roxin, P. Venge & L. Wibell* 717
Immunoelectrophoretic studies on human small intestinal brush border proteins: *Hanne Skovbjerg, Ove Norén & Hans Sjöström* 723
Effect of carbazepine, phenytoin and phenobarbitone on serum levels of thyroid hormones and thyrotropin in humans: *K. Rootwelt, T. Ganes & S. I. Johannessen* 731

Clinical Physiology

Cardiac effects of thoracic epidural analgesia before and during acute coronary artery occlusion in open-chest dogs: *Harald Vik-Mo, Stig Ottesen & Hans Renck* 737
Reproducibility of work performance at serial exercises in patients with angina pectoris: *Claes Lassvik* 747
Exercise energy expenditure in extreme obesity: influence of ergometry type and weight loss: *U. Freyschuss & A. Melcher* 753
Prevalence of primary Raynaud phenomena in young females: *Niels Olsen & Steen Levin Nielsen* 761
Raynaud phenomena and finger systolic pressure during cooling: *Steen Levin Nielsen* ... 765
Plasma C-peptide in uraemic patients: *L. Regeur, O. K. Faber & C. Binder* 771
[^{51}Cr]EDTA plasma clearance and endogenous creatinine clearance in advanced renal insufficiency: *U. G. Svendsen, O. Munck, A. Czartoryski & G. Stafanger* 777

Technical Notes

Study of the EMIT® method for determination of anti-epileptic drugs in serum using an LKB 2086 Reaction Rate Analyzer: *N. J. Christensen*... 781
Simultaneous blank correction in a turbidimetric continuous flow system for immunochemical quantitation of plasma proteins: *M. Blom & D. Sørensen* 785

Key-words

	Page
Acyl-CoA	699
Acetazolamide	7, 573, 615, 627
Adrenergic β-receptor blockade	229
Adipose tissue	209
Adipocytes	83
Adaptometry	301
Agar gel diffusion	517

Prevalence 761
Proficiency survey 295
Progesterone RIA 393
Prolactin 249
Propranolol 133, 407, 567
Propranolol serum gastrin . 441
Prostaglandins 337
Protease inhibitor 457
Protein analysis 295
Protein binding 659
Proteinuria 269
Prothrombin 643
Pulmonary blood flow 581
Pulmonary microembolism . 337
Pulmonary smooth muscle contraction 337
Pyridoxal 5-phosphate 273

Quality control 53, 295
Quantitative analysis 279

Radioactivity 561
Rates of elimination 561
Radioimmunoassay. 97, 249, 687, 707
Radioimmunoassay of aldosterone 487
Radioisotopes 223
Rate pressure product 747
Raynaud phenomena .. 761, 765
Reaction rate analyser 781
Rebreathing technique 199
β-receptor blockade 143
Recovery after exercise 35, 349, 557
Recovery experiments..... 279
Red cell membrane 121
Reference ranges 659
Renal blood flow 155, 495, 567, 573
Renal concentrating ability . 19
Renal function 19

Page
Renal haemodynamics 233
Renal metabolism 603
Renin 163, 241, 319, 487
Reproducibility 383
Respiratory frequency 181
Retinal binding protein (RBP) 301
Routine determination 93

Saline infusion 615
Sample blank 785
Screening 279
Selective ion electrode 659
Serum 127
Serum albumin 659
Serum calcium 659
Serum enzymes 113
Serum glucose 549
Serum ionized calcium 659
Serum insulin 549
Serum tyrosine..... 255
Single radial immunodiffusion 93
Skeletal muscle 35, 349, 557
Small intestine 723
Smoking 441
Sodium 147
Sodium dodecyl sulphate .. 93
Na-K-ATPase 603
Sodium reabsorption .. 573, 603
Sodium salicylate 209
Spherocytotis 121
Splanchnic block 233
Squalene 83
Statistics 397, 477
Sterognost-3α 447
Steral synthesis 83
Stop flow 603
Straingauge plethysmography 431
Stroke volume 587
Substrate reaction 41
Sulphate 521
Sulphiride stimulation 249
Sulphur metabolism 521
Superfusion method 337
Sympathetic nervous system 163
System Olli 3000 analyser .. 127
^{99m}Tc-DTPA 23

Page
Thermodilution ... 171, 217, 361, 495, 581
Thiocyanate 521
Thiosulphate 521
Thoracic epidural analgesia. 737
Treadmill exercise 753
Thyroid function tests . 477, 593
Thyroid hormones 593, 731
Thyrotropin 731
Thyroxine 593
Thyroxine binding protein . 731
Training 217
Transferrin 785
Transplantation 369
TRH Stimulation 249
Triglycerides..... 189, 643
Triiodothyronine 593
Trypsin 261, 507
Trypsin inhibitors 261, 507
Tubular proteinuria 717

Ultrasonic technique..... 133
Uraemia 771, 777
Urine 19, 127
Urinary electrolytes 487
Urinary LH 97
Urinary sodium 319
Uromucoid 49, 93
Uroporphyria..... 273, 279

Vasodilators 143, 425
Velocity of shortening 133
Venae cavae 389
Ventricular septal defects .. 581
Vibrations..... 415
Vitamin A deficiency 301
Vitamin D 677
Volume expansion..... 155
Volunteers 561

Wall stress 133
Wick chromatography 537
Working capacity 171, 361

Xenon clearance 223
Xenon 133 wash-out 223

Zonal ultracentrifugation .. 113
